DINNER ADVENTURES

How to Playte Memory?

**The set includes 3 Playtes
in increasing levels of difficulty:**

Level 1. Under the Sea

Level 2. Outer Space

Level 3. Tree of Owls

Object

Find pairs of drawings and eat the food pieces
hiding them until you finish the Playte.

Setting up

Place food pieces on each of the drawings.

Try to hide the drawing as much as possible with the food.

Try to set up the Playte in a different direction each time.

It will make the game more interesting.

How to play?

Like a regular Memory Match game.

Pick up two food pieces:

if the drawings under them are the same,
you can eat them. If not, put the food back
and choose two other pieces.

Parent tip

Encourage the child NOT to eat bites unless pairs are found.

You will note that even though the child has to put some of the food
back on the plate, this will make him more eager to eat.
